---

Thanks Eric. As usual things have been crazy trying to get out of here for two weeks. I am pretty busy tomorrow, but will touch base on Friday.

-Jennifer

Jennifer, just a few things before you go to the Pellston Workshop and

(b) (6)

- 1) TRVs - Bob responded to your comments. If you wish to discuss further with Bob alone or Bob and I together, let me know.
- 2) Bioassay Data - can you be more specific as to what is missing from the LWG data posted on the portal. Bioassay data are posted on the portal (files, data, round 3 data, bioassays). We will be importing the data into query manager shortly (especially now that we have the whole body carp and bass data). I assume that when we get the data into QM, we will be able to perform all the queries we can now run (e.g., % difference from control at a specified percentage).
- 3) Follow-up on LWG comment clarification request. I just want to make sure I understand your concern and my memory from two weeks ago is weak.

I am around tomorrow and Friday if you have time. The following week, I will be out of the office on Monday and Tuesday but will be in Wednesday - Friday.

Thanks, Eric
